

HEATHER DE GUZMAN

SKILLS

I have a great interest in graphic design, exploring Illustrator, Photoshop, and InDesign. I am also brushing up my skills in sound equipment and video production. I have a conversational level of Chinese.

EXPERIENCE

Teacher | Homeschool | 2013 - Present

Set up eLearning modules on Moodle that would prepare students for once a week, in-person meetings to work on constructive projects and to track student assignments and quizzes.

Geography Teacher | Baishan School | 2012 - 2013

Incorporated iPad apps, such as the National Geographic Atlas, historical video clips, and graphic organizers into mini-lessons for Chinese National high school students.

EDUCATION

MS Instructional Design & Technology | May 2017 | California State University, Fullerton

Fusing learning theories and models of teaching with eLearning authoring software, learning management systems (LMS), graphic design, web development, & emerging technologies.

Multiple Subject CLAD Credential | Dec 2000 | California State University, Stanislaus

GPA 3.75

BS Biology | Dec 1998 | Biola University

GPA 3.201

OBJECTIVE

I would like to apply for an instructional design position, to come along side of teachers to develop and design their lessons using technology and sound instructional models, and to provide training in using the Learning Management System (Moodle) and other emerging technologies.
